REASONS FOR ALLOWANCE

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/01/05 has been entered.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach in combination as claimed an apparatus and method for determining near-end cross talk effects by applying a processing unit adapted to process the raw cross-talk signal in the frequency domain to determine a combination of near-end cross-talk components characteristic of the near-end cross-talk effects. The test signal has a frequency that is swept, each time by a predefined sweep frequency step, across a predetermined sweep frequency range. The near end cross-talk components are cross-talk components of the raw cross-talk signal that are non-periodic over the sweep frequency range or periodic having a repetition period of more than a predetermined number of sweep frequency steps. This process compensates for the cross-talk effects contributed by the near end connector.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
